Surface soils on carpet are unsightly and can lead to permanent damage. Vacuuming daily is important, but when it is time for interim cleaning measures, the spin bonnet method is the preferred choice. The primary advantage of this method is the rapid dry time. This formulation dries in less than one hour, is nonflammable, fast evaporating and cleans a wide variety of soils, yet leaves no residue.

### FIBERPRO RED AND BROWN REMOVER (USE JOHNSON 4252)

Vendor:  
 MMS Code **BCC-419GL**  
 Vendor Code **419GL**

 UNSPSC **47131827**

This highly concentrated product is formulated for maximum performance. As a concentrate it is very effective against stubborn stains from coffee, tea, urine, fruit juices, red wine and red soft drinks. When diluted this same product is excellent for general debrowning of carpet caused by alkaline detergent residue, soaps or detergents. And finally, as a post extraction rinse, this product neutralizes any alkalinity or detergent residue left behind to help prevent future browning

A silicone-based defoamer emulsion designed to weaken the structural integrity of bubbles, making it impossible for foaming problems to occur. As little as one ounce per 5 gallons of recovery tank capacity can prevent costly equipment damage and decrease the time spent emptying recovery tanks. Safe and effective in hard or soft water, acid solutions, alkaline, or other areas where foam is a problem. Safe on hard surfaces to create a silicone shield, increasing lubricity which allows objects to slide more easily.
